

**Hello, I'm Grandma Louie** and we can see how much I remember . While Glen's family lived in St. Louis, on the weekend, they visited Ruby's Mom & Dad every other week, and Glen's the next. Most everyone had a cellar to keep apples , potatoes, & canned goods in. Our cellar was down'under the house and used for many things. Some of the things like separating milk, etc, was moved out to the porch and chairs were moved out under our big shady tree for people to sit in. Glen's daughter, Martha, suffered with migraine headaches and I fixed up a little room just off of the kitchen that I could lay down beside her sometimes when the headaches were severe and her mother was busy. I also fixed up a drawer (especially for the grandchildren) that had various things for them to play with plus crackers etc to snack on.

Rollie and Thelma were the entertainers at one of our reunions in St. Louis. That was before they adopted Mike and Pat from Ireland and we had a vehicle to drive. Glen and Ruby and family were unable to make the trip to St. Louis but just about everyone else in our family did. Someone took pictures which is really fun to watch after Glen's daughter, Cheryl, took the reel and had a video made of it. The chicken was delicious. Rollie had someone there to keep chicken cooking so everyone had all they wanted. They took some pictures of me with my girls.. It was nice that I didn't have to cook, and was free to just visit. And when it was over, we had a car and just drove home.

**Grandma Louie says:**

God makes no mistakes.  
The STOPS of a good man  
are ordered as well as his steps.

I thought you might like to make a MOBILE to celebrate EASTER.
